PROFILE SUMMARY

I am a dedicated Software Engineer with a strong passion for web development especially in MERN stack and Mobile Development in the Full stack. I possess a solid foundation in full-stack development, including React.js, Node.js, Express.js, MongoDB and others. React Native for Mobile development. I am a highly motivated, productive, and customer-focused team player with exceptional communication, interpersonal, organizational, time management, analytical, and solution-oriented skills. I am adept at designing and implementing robust web applications, ensuring seamless user experiences, and continuously seeking to learn and innovate in the rapidly evolving field of web development.

WORK EXPERIENCE

Information Network Security Administration of Ethiopia (INSA)   FEB - JULY 2023
Software Development Intern

Completed a four-month undergraduate internship at the Information Network Security Administration of Ethiopia (INSA), focusing on MERN stack project development. Developed a Store Management System to manage multiple stores for merchants.

CERTFICATES

- Red Hat System Administration
- Red Hat Applications Development in Java EE
- NDG Linux Essentials certifications from Cisco Networking Academy
